Cattle Prices Average \$2.90 Over 1979, Swine Posted \$10.60 Better Rates, Corn, Soybeans Added to Price Gains

Prices received by farmers set a record high for the second straight month! Though preliminary figures showed prices received a month ago at 244 pct. of their 1967 average, the revised figures put them at 247. Since the previous high - set in March 1979 and equaled in May 1979 - was 246, that made the July revised figure of 247 record high!

It also made the August figure of 266 an all-time high - up 9 points (3.6 pct.) from a month earlier and 18 points (7.8 pct.) from a year ago. Higher prices for hogs, cattle, corn, eggs, potatoes, and soybeans contributed most to the increase.

Corn, at \$2.98 per bu., was up 20 cents from a month earlier and the highest since the \$2.95 of August 1976. Hogs averaged \$46.80 per cwt., up from \$41.20 in July and \$38.20 in Aug. 1979. Cattle averaged \$65.10 per cwt., up from \$63.20 in July and \$62.20 a year ago.

On the Prices Paid side, the index advanced 4 points (1.4 pct.) to a new record high of 284, up 38 points (13 pct.) from a year ago. That means the ratio of prices received to prices paid advanced two points to 90. A year ago it had stood at 84. Under the old 1910-14 formulas, Prices Received advanced from 817 to a record 841 and Prices Paid advanced from 952 to 964. That left the Parity Ratio at 87, up from 86 in July. That's down from the 70 of a year ago, but still the highest since last December.

Young Tommy's parents were trying to teach him the value of money. Too soon on his spending, they had to keep an exact account of how he spent his allowance each week. One day he remarked to them: "You know, since I have to write everything down, I really stop and think before I buy things." The parents were congratulating themselves silently when Tommy continued, "I just don't buy anything that hard to spell."

We like 'em GENTLE

We don't want any of those "fence climbing" cows. In fact, nobody does. They're the ones who won't have one on the place and get make sure you don't end up with one when you come to Santa Elena.

Orren Mixer, one of the nation's best known equine portrait artists, will be honored with the presentation of a lifetime membership in the American Paint Horse Assn. during opening ceremonies at the 2J Horse Farm Paint Horse Production Sale in Iowa Park, Texas, on Sept. 20.

Mixer's painting of the Supreme Champion Paint stallion, Yellow Mount, has been one of the primary promotion items in the APHA over the past nine years. Various reproductions of the painting have been instrumental in the wide reception of the Paint Horse breed.

Mixer, who hails from Edmond, Okla., will be on hand for the presentation, along with various officials of the APHA, including President J. W. Tyner, Tyler, Texas.

2J Horse Farm, owned by Mr. and Mrs. Stanley Williamson, is the nation's leading breeder of Paint Horse halter and performance winners along with Register of Merit qualifiers in the Paint

tributing to the marketing bill are packaging, transportation, pretax profits and costs such as taxes, depreciation, rent, energy and interest.

"About 9 cents of every food dollar goes for packaging, a nickel goes for

Horse breed. The 2J venue will include some 75 head of top quality Paint Horses featuring the get and service of 2J's Supreme Champion stallion, Yellow Mount, who is the nation's leading all-time sire of Paint Horse halter and performance winners, as well as the leading sire of APHA Champions.

The sale begins at the farm at 6 p.m. on Saturday, Sept. 20 and will be preceded at 5 p.m. by a reception and bar-b-que.

transportation, almost another nickel goes for pretax profits, and 20 cents covers other costs," says the economist.

While the farmer's share of the food dollar in 1980 will be below that of a year ago and pretax profits are also expected to drop slightly, other parts of the marketing bill should show sharp gains. Edwards estimates that labor

packaging costs up 12 to 14 percent, transportation up another 14 percent, and other costs up about 20 percent, due mainly to skyrocketing utility costs.

"A major reason that the marketing share of the food dollar continues to increase is the increase in popularity of convenience foods," points out Edwards. "The time and work involved in manufacturing these products is shifted to the manufacturer from the consumer, a service which means higher prices."

What does the food picture look like in the months ahead?

"Generally, supplies of most food products will be tighter through the remainder of the year due to drought conditions which have lowered production," notes the economist. "This means that such products as poultry and eggs, beef, pork, milk and vegetables will cost consumers more. However, beef may be the exception to a short while due to increased marketings caused by the drought, which could build supplies. In the long run, though, beef supplies will be tight due to reduced cattle feeding and low cattle numbers."

Although both pork and beef production is down, strengthening corn and sorghum prices along with a continued high rate of inflation will likely hold down production expansion until late prices clearly indicate that operations will be profitable, says Edwards.

Cattle Raisers Recover Ranch Property Worth Estimated \$11,700

Fort Worth — A North Texas crime spree affecting rural areas ended recently with the arrest of two suspects in Childress, Texas, and the recovery of an estimated \$11,700 worth of ranch property by Texas and Southwestern Cattle Raisers Association field inspectors.

On Aug. 12, 1980, two Texas Department of Public Safety patrolmen arrested two suspects following a high-speed chase involving a stolen GMC pickup and two-horse trailer. Both vehicles were stolen.

A free certified Beefmaster bull will be given away in a drawing at the end of the sale.

A pre-sale party is set for Friday, September 19, 1980 at 7:30 p.m. at the Community House on Hwy. 69, two blocks south off I-30 in Greenville.

For information on the sale call or write: Jerry Hardin, Box 464, Mesquite, Texas 75149, 214/285-3240.

The suspects, identified as Rick Boyd McMillan, 26, and Charles Scott Russell, 17, were apprehended and returned to Childress County Jail. McMillan subsequently escaped and was free at this writing.

TSCRA field inspectors Charles Thompson of Clarendon, Texas, and A. L. "Dutch" Davis, Jr. of Fort Worth were called in to identify the stolen property and to locate the owners.

According to a statement given to TSCRA field inspectors by one suspect, the two allegedly stole a GMC Jimmy pickup truck, several citizen band radios, numerous saddles and tack, tool boxes and tools, a chain saw, industrial equipment, a horse trailer and fishing tackle in early August. Most of the property was stolen from the Dallas-Fort Worth Metroplex, but was recovered and returned to the rightful owners by TSCRA inspectors.

Russell has been assessed both a \$10,000 and a \$2,000 bond on theft from Tarrant County and has been returned to Tarrant County Jail. Don C. King, TSCRA secretary-general manager from Fort Worth, said more charges may be coming from other counties.

Page 10 WEEKLY LIVESTOCK REPORTER September 4, 1980

"We don't know the extent of this case at this time, but it appears the suspects may have been involved in burglary cases we have under investigation in the Texas Panhandle and other areas," King said.

Rural crime is on the increase, King warned, and urged farmers and ranchers to beware of suspicious vehicles, to jot down license numbers and to check their cattle, horses and equipment on a regular basis. He urged rural landowners to record serial numbers of property. He called rural theft a multi-million dollar problem and encouraged landowners to become closer neighbors and to watch out for each other.

TSCRA is a non-profit organization representing 14,000 livestock owners in Texas, Oklahoma and surrounding states. Its 32-man law enforcement arm is located throughout Texas and Oklahoma to help farmers and ranchers in the protection of their livestock and ranch property.

Officers involved in this case included TSCRA field inspectors Thompson and Davis, Childress County Sheriff J.

NCHA Derby Set, Waco, Sept. 22-24

The site of the 11th Annual NCHA Cutting Horse Derby will once again be the Heart O' Texas Coliseum in Waco, Texas, on September 22-24, 1980.

Restricted to all foals of 1976, the Derby promises to have the same kind of intense Cutting Horse competition that was exhibited at the Futurity in December. In fact, eleven of the top fifteen Futurity horses are currently among the field of 125 entries in the Derby. To say the least, 124 of those entries are out to keep Doc's Diablo from winning the second leg of the NCHA Double Crown. With an additional year of experience behind them and plenty of good fresh cattle in front of them, the outcome should prove to be very interesting. In conjunction with the Derby

will be the 6th Annual NCHA Non-Professional Derby. There are 35 contestants entered in the Non-Professional division to match their skills with those of their four-year old cutting horses in an effort to win the coveted Non-Professional Derby Championship.

The Derby headquarters will be the Ramada Inn, 4201 Franklin Street, Waco, Texas 76710, (817) 772-9440. Make your reservations now and plan to attend the 1980 NCHA Cutting Horse Derby.

Also, make your plans now to attend the 1980 NCHA Futurity in Fort Worth, Texas, December 8-14, 1980. This the 19th annual Futurity promises to be the richest arena horse event ever held. With 1149 horses nominated, 924 horses are still active with only 8 sustaining payments remaining before the Futurity.

Carlot Meat Trade During Past Week

Dee Moines, Aug 29 (F-S) - Carcass beef opened the week under pressure with more than ample offerings from burdensome week-end carryover levels. Prices declined sharply in early trade with bulk of the movement to processors. Price levels recovered part of the earlier declines into mid-week with most trades moving packer to packer basis. Boxed beef trade improved into mid-week with best movement on chuck items along with gooseneck rounds. Loin items continue to find narrow outlets followed by inside rounds and knuckles. Processor margin levels continued positive for the week in spite of consistently lower carcass cut-out values, primarily resulting from lower replacement cost. Slow trade prevailed in late week activity as offerings were somewhat limited for next week's holiday shortened production, due in part to limited truck availability.

C&F Farms Limousin Production Sale

Set For September 20

Oklahoma City - C&F Farms 2nd Annual Limousin Production Sale will be held Saturday, September 20, 1980, at 1:00 p.m. in the C&F Farm headquarters located 2 miles south and 2 miles east of Tribbey, Okla. (approximately 1 hour southeast of Oklahoma City.)

Selling will be full French Limousin bulls, fullblood and purebred Limousin cows with calves, bred 75% Limousin heifers, bred 75% cows, 50% cows and percentage.

Feeder Cattle, Calves Lower During Week

St. Joseph, Aug. 29 (USD) - National feeder cattle and calf receipts 229,800, last week 229,200, year ago 269,800. Price declines outnumbered advances by a large margin and feeders steady to 2.00 lower than a week ago with calves in the Southeast 2.00-2.50 lower, instances 8.00 lower. The primary exceptions to this trend was Montana, Wyoming, Nebraska, and Iowa which were steady to 1.00 higher with calves in Montana 4.00-5.00 higher. Liberal movement of feeders in the Southern tier of states. This report by USDA Livestock Market News.

LIMOUSIN FEEDERS

RESEARCH PROVES THAT LIMOUSIN SIRED CALVES:

ARE WORTH MORE!

Are More Efficient and Faster Gaining than Black-Baldies.

In Texas A&M research, Limousin sired steers outgained Hereford-Angus crosses by .59 pounds per day and required 76 fewer pounds of feed for every pound of gain.

In Oklahoma State research, Limousin sired calves took 4 fewer pounds of feed for each pound of gain than the Charolais sired calves, and had the same average daily gain.

Have Higher Dressing Percentages, Larger Rib Eyes, Less Fat Cover and the Most Desirable Yield Grades of any Breed.

In MARC research, Limousin carcasses were superior in dressing percentage and yield grade.

In Texas A&M research, Limousin carcasses were heavier muscled and leaner.

In Oklahoma State research, Limousin carcasses had higher quality grades and higher dressing percentages than Charolais carcasses.

Return More Profit to the Feeder and the Packer.

Due to the large penalties now applied to yield grade 4's and 5's, in relation to the small premium paid for choice, yield grade is the key to profit.

Leaner cattle are more efficient as it requires at least 2.25 times more energy to put on one pound of fat than one pound of lean.

We recently received data from 158 head of 3/8 and 5/8 Limousin steers that gained 3 1/2 pounds a day. They were 80 percent choice and 80 percent yield grades of 1 & 2 with no grades in 4 & 5.

BBU EXPO '80 Collection of Superior Beefmaster Herd Sires

Beefmaster breeders from across the nation will be participating in BBU Expo '80 on October 10, 1980 at the Louisiana State Fairgrounds in Shreveport, La. The exposition of herd sires and progeny is the first on a national scope for Beefmaster Breeders Universal and the purebred industry as a whole. Thirty-four breeders will exhibit 65 head of senior herd sires and their progeny. The event is being held in conjunction with BBU's 20th Annual Convention.

"The purpose of BBU Expo '80 is to congregate a large selection of superior Beefmaster herd sires in one location," says Gene Kuykendall, executive vice-president of Beefmaster Breeders Universal. "This will enable our members from throughout the nation to

S. Texas Beefmaster Heifer Sale Averages \$1,545

Live Oak County — The South Texas Beefmaster Heifer Sale, held Sunday, Aug. 17, drew a large turnout as Don Moore, past president of the South Texas Beefmaster Association, welcomed the crowd and the newly elected president, Wayne Miller of Three Rivers.

The sale had been postponed from Aug. 9 because of the threat of Hurricane Allen off the coast of Corpus Christi. The rains associated with the huge storm, however, brought a welcomed relief to drought-stricken South Texas and a new optimistic outlook for the cattle business.

This optimism was well indicated by the sale gross of \$217,776 on 141 lots of heifers for a \$1,545 average. Auctioneers and sale managers were Anthony Mihalski and Ruben Reyes of San Antonio.

The high selling heifer consigned by Bill Clark of Duncan, Ok. sold to Joe Hendricks of Sandia for \$5,000. Other high sellers included: one consigned by C.R. Prinz of Bishop and purchased by Joe Yarbro for \$3,900; one consigned by Arlen Walker of Refugio and purchased by Archer Parr of San Diego for \$3,500; and one consigned by Billy Ray Moreland of Burnet and purchased by Spivey Beefmasters of Odem for \$3,400.

Volume buyers included David Foster of Davis, Ok.; Estate of Ed Canales of San Antonio; Arnold Sikes of Tyler; Cactus Cattle Co. of George West; Spivey Beefmasters of Odem; Wayne Miller of Three Rivers; Estate of Lillian Parr Moffett of San Diego; Barbon Corp. of Sandia; Joe Yarbro of Three Rivers; J. B. Kolb of Three Rivers; Leon Lankford of Corpus Christi; and George DuBose of Three Rivers.

"This is not a show and the cattle will not be judged in any way," adds Kuykendall. "It is an excellent opportunity for all purebred breeders and commercial producers to observe genetically superior cattle, many of which will have performance information available."

A similar event held on a state-level in San Antonio, Tex., in July, 1979 drew a crowd of 600 purebred and commercial producers from eleven states and Mexico. "This year," says Kuykendall, "the Expo will again be open to the public and we anticipate an even larger crowd."

Texas Premium Beefmaster Sale Grosses \$957,000

San Antonio — Joe Hendricks' Barbon Corp. at Sandia; Hans Wittenburg of Edna; and Richard Bolling's Palsano Beefmasters at La Ward hosted a highly successful Texas Premium Beefmaster seedstock sale Aug. 31 in which 97 and three-fourths lots grossed \$957,000 to average \$9,790. The sale was managed by Fred Thompson Cattle Marketing of San Antonio and Gerald Bowie of West Point, Ga., was the auctioneer.

Barfield Sets Fifth Beefmaster Production Sale October 18

Immokalee, Fl. — The Barfield Sale, "Fifth Edition," traditionally one of the highlights of the Beefmaster year, has been set for Saturday, October 18, 1980. The BBU approved sale will be held at Barfield's purchased headquarters on Highway 20 between Immokalee and LaBelle, Florida.

The event will again feature the unique "doubleheader" format with the seedstock sale at 10 A.M. and commercial sale at 2 P.M. Barfield's now-famous "Immokalee-style" steak barbecue will be served at lunch at the sale site. The Rodeway Inn, Ft. Myers, Florida will be the sale headquarters.

Each of Barfield's previous sales have produced record individual and average prices. In 1979, the outstanding young Barfield-bred bull, "Warrior's Pride," set a still existing breed record for a bull sold at public auction. The year before, "Fridge's" sire, "Crimson Warrior," had established the same record. This year, progeny of "Fridge" will be featured at the sale.

The "Fifth Edition" sale will offer the greatest number of proven, genetically superior herd bulls ever offered in a single sale. Barfield will sell all of his four-year-old herd bulls this year, many of them in this sale. Included in the sale will be "Legacy," one of the top producing bulls in the history of Fred Barfield Farms; "Ben," a great son of "King," known for the excellent quality, eye appeal, and performance of his calves; and "Red Cloud," a son of "Barfield's Blaze," the bull which topped the 1977 Barfield sale.

BBU Embryo Transfer Seminar Scheduled Prior To "Confederacy" Sale

An embryo transfer seminar, "A Shortcut To Building A Superior Genetic Pool," will be held in conjunction with The Confederacy Beefmaster Sale. The seminar will begin at 1 p.m. on Thursday, September 25, the day prior to the sale, at the Journey's End Hotel, Marietta, Georgia.

The seminar will feature discussions by Dr. Joe Wright, Medina Valley Veterinary Services, Castroville, Texas and Dr. John Lasley, professor emeritus and former Chairman of the Department of Animal Science, University of Missouri. Dr. Wright and Dr. Lasley are considered two of the foremost authorities in the fields of animal breeding and embryo transfer.

The program also includes a video tape presentation of the embryo transfer procedure and a question and answer session. The seminar is sponsored by The Confederacy and open to all cattle breeders. For more information, contact Bob Grebe, 500 N. W. 165th, Suite 205, Miami, Florida, 33169, National Wats 1-800-327-8316.

signed by guest consignors Charlie and Vonda Tindol Beefmasters for \$15,000; a Bolling bred heifer for \$12,000 and a Wittenburg bred heifer for \$11,000.

Barfield bought a Hundricks open heifer for \$16,000; Gamble Creek Beefmasters at Parrish, Fla., paid \$15,000 for a Hendricks open heifer; and George Simmons of Charleston, Mo., bought a Hendricks open heifer for \$10,100.

Volume buyers included the Browns, four lots for \$142,500; Pete Murphy of Alice, Texas, 10 lots for \$84,400; Barfield, five lots for \$73,600; Harrell Cattle Co., Cuarenta Ranch of Muldoon, Texas; and Thompson Bros. of Mandeville, La.

April estimates show U.S. farmers will plant 82 million acres of corn this year. That's three percent more than in 1979, according to Sperry New Holland.

"Confederacy" Sets Beefmaster Sale

"The Confederacy," syndicators of the outstanding young Beefmaster bull, "Robert E. Lee," has announced its first Beefmaster production sale. The BBU approved sale will be held on Friday, September 26, 1980, at Circle R Farm, Marietta, Georgia, beginning at 10:30 a.m. Sale cattle can be inspected on Thursday.

Members of "The Confederacy" include Circle R Farm Beefmasters, Marietta; Zipperer Beefmasters, Ft. Myers, Florida; and Gamble Creek Beefmasters, Parrish, Florida.

The sale will feature 60 lots, representing the breeding and influence of some of the most nationally recognized, top performing bulls in the Beefmaster breed. Sires represented in the sale include "Robert E. Lee," "King," "Garza," "Jo-Jo," "Beauregard," "Crimson

Warrior," "Playboy" and "Grand Champ." Five herd sires and herd sire prospects, 35 three-in-one packages and pairs, and 20 bred and open heifers make up the impressive offering. The cattle will be supported with extensive performance and production records. The female offering features some of the breed's great proven individuals. Many are considered excellent embryo prospects.

This will be the first time females carrying the services of "Robert E. Lee" have been offered for sale since he was purchased for the still-existing world record price at the 1979 Barfield Farms sale.

On Thursday, before the sale, Dr. Joe Wright, Medina Valley A. I. Lab, of Castroville, Texas, will conduct a seminar on embryo transfer. The seminar, which will consist of a video-taped presentation and question and answer session, will be held at the Journey's End Hotel, Marietta, headquarters for the sale. Dr. Wright is one of the beef industry's most experienced and respected authorities in embryo transfer. The program

Ryan Beefmasters Acquire "Levi" Semen Interest

Nolan Ryan, one of baseball's most celebrated and respected pitchers, has expanded his Beefmaster breeding program through the use of the outstanding proven herd sire, "Levi." Ryan acquired a semen interest in the bull from its owner, Gene Thompson, McNeill, Mississippi. Ryan, now pitching for the contending Houston Astros, lives and raises Beefmasters near his hometown of Alvin, about an hour's drive from the Astrodome. He has steadily expanded his Beefmaster program since purchasing at 1 p.m. and is open to the public.

Sale visitors will also have the opportunity to visit many well known historical sites in the Atlanta area.

For more information, contact "The Confederacy" at 4675 Roswell Road, N. E., Marietta, Ga. (404) 908-8840; or Fred Thompson Cattle Marketing, 8603 Crownhill, Suite 6, San Antonio, Texas 78209. Gerald Howie will be the auctioneer.

ing his first cattle from the late Homer Herring of George West in 1972.

"We've constantly looked for improved genetics in our herd. With the type cows we now have, I think 'Levi' will do an outstanding job for us. I'm highly impressed with the bull, and from what I've seen, he is breeding with consistency and quality," Ryan said. He bred "Levi" to nine heifers this year and will breed him to 40 females during the next breeding season. Ryan's cowherd represents Herring, Gordon, and other established bloodlines.

Ryan reached another milestone in his baseball career this season when he struck out his 3,000th batter, the youngest pitcher to reach that magic mark. He now ranks fourth in strikeouts in the history of baseball. His four no-hitters ties him for first with the legendary Sandy Koufax. And while he expects to be pitching for the Astros - and establishing new records - for the next few years, Ryan's retirement from baseball will mean a continuing, and full time career in ranching.

"Expanding - and improving - our herd genetics through the use of 'Levi' is helping us reach our goals a little faster," he said.

Charles McPeake contemplates operations at Oklahoma Beef, Inc., a breeder-owned test station at Oklahoma State University where Angus, Brangus, Hereford, Charolais and Polled Hereford bulls are performance rated. He took over supervision of the Stillwater, OK center in June.

Charles McPeake Runs Oklahoma Beef, Inc.

Charles McPeake is new secretary-supervisor of Oklahoma Beef, Inc., a breeder-owned bull performance testing station operated by Oklahoma State University near Stillwater. McPeake took over the job vacated by Dusty Rich, who left his OSU Extension beef specialist's position to join the American Polled Hereford Association. And McPeake admits Rich left the operation in fine shape.

"The facilities are great. Dusty did a good job of planning the entire layout. We've got excellent facilities for testing five breeds of bulls separately and simultaneously." And while the chore is a big one, McPeake says it's a pleasant one. "The breeders I've met are friendly and really interested in beef improvement," he says. "So far, I haven't run into anyone who was critical of OBI."

AMAA Sells "Mark" To "Stock Show" Magazine

Brownwood — Calvin Fryar, president of the American Maine-Anjou Association, has announced that the association's official publication, the "Maine-Anjou Mark," has been sold to Stock Show Publications of Albany, Texas, where publication will now take place. It was formerly published by Maine-Anjou Publications, Inc., in Kansas City.

During the transition, several monthly issues were missed, but all prepaid subscriptions and prepaid advertising will be honored in full by the new owners, Fryar said.

The "Stock Show," a publication directed at the club calf, swine, lamb, horse, and poultry industry, is published by Buddy Sievers of Albany.

Fryar listed several advantages transfer of ownership of the "Maine-Anjou Mark" will have for the American Maine-Anjou Association: It is going to a stable, established and successful publishing firm; reduced advertising rates and better coverage and services of a field man to cover advertising, shows and sales; and will eliminate necessity for the AMAA members to oversee and help with publication of the magazine.

"We look forward to an even stronger breed publication and broader organization than we have had in the past," Fryar said.

Address of the "Mark" is P. O. Box 801, Albany, Texas 76430, phones 915/782-2352 or 782-3449.

Maine-Anjou Cow, Bull Sale at Abilene Sunday, Oct. 26

Abilene — Consignments are now being taken for the Texas Maine-Anjou Association's cow and bull sale to be held at the West Texas Fairgrounds here at 1 p.m., Sunday, Oct. 26. Deadline for entering cattle in the sale is Oct. 1.

Don Rhone of Coleman, TMAA president, said, "This sale is open to the world, but cattle must be registered in the American Maine-Anjou Association."

Bulls and females of halfblood or higher percentage Maine-Anjou may be consigned.

Already consigned to the sale are 50 three-quarter Maine-Anjou heifers most of which are black. They are bred to black Chianina bulls.

If cattle are not registered with AMAA, consignors must attach a copy of application for registration with their entry form. The entry forms must show the base breed from which the cattle were developed.

All cattle must have health papers and comply with Texas Animal Health Commission regulations. Breeding age bulls, 12 months and older, must be fertility tested. Females sold as bred safe in calf must have been pregnancy tested.

The cattle must be at the Fairgrounds by noon Saturday, Oct. 25, but may arrive as early as Wednesday, Oct. 22.

Cost of selling cattle in the sale will be a non-refundable \$25 per head nomination fee plus 10 percent commission on the selling price. Females in pens of five head can be nominated at \$20 per head, and must be sold in pens of five head. Such pens must be approximately the same age. Split pairs will be considered two lots. A 10% sale commission will be charged on cattle passed out of the sale ring without being sold.

Rhone said custom fitters will be at the sale for persons desiring to have their cattle fitted.

Checks will be issued to consignors within 14 days after the sale.

For original entry forms, contact the sale management: International Sales Service, P. O. Box 801, Albany, Texas 76430, or the Texas Maine-Anjou Association, Box 752, Coleman, Texas 76834, or call Don Rhone, phone 915/825-4141.

TM-AA Sets First Commercial Sale Oct. 26, Abilene

Brownwood — Plans were finalized by the board of directors in a meeting here July 27 for the Texas Maine-Anjou Association's first commercial bull and female sale to be held in the Taylor County Coliseum at the Fair Grounds in Abilene, on Sunday, Oct. 26, beginning at 1 p.m., according to Don Rhone of Coleman, president of TM-AA.

Rhone said only animals which are registered in the American Maine-Anjou Association will be accepted for the sale, but consignments from any part of the country are welcome. All of the cattle must have health papers, and bulls which are breeding age must have fertility papers.

Already consigned are 50 three-quarter coming-two-year-old Maine-Anjou heifers, mostly blacks, that are bred to Black Chianina bulls. Halfbloods on up through fullbloods will be accepted for the sale.

"This sale will be a good opportunity for 4-H and FFA youngsters to buy females from which they can produce their own club calves," Rhone said. He added that it will also be an opportunity for commercial cattlemen to buy either bulls or females which they can take home for comparison with their other cattle.

Buddy Sievers and Associates of Albany will manage the sale.

Consignments are Oct. 1, or until sufficient cattle have been consigned to have a good sale. Consignments may be made by contacting Don Rhone at 915/824-4141.

Texas Maine-Anjou Bull Sale Set Nov. 20 In San Angelo

San Angelo — The Texas Maine-Anjou Association annual bull sale will be held at Producers Livestock Auction Co. here on Thursday, Nov. 20, beginning at 1 p.m. The sale will be held in conjunction with the regular Thursday cattle sale at Producers.

Don Rhone of Coleman, president of Texas Maine-Anjou Assn., said 40 to 50 percentage bulls will sell. They will be breeding-age and ready to go to work.

The bulls will have all health papers and be fertility tested. "Last year we had several large commercial ranchers at the sale and some bought several bulls. We believe the interest in good Maine-Anjou bulls for use on commercial cattle is increasing," Rhone added.

Maine-Anjou Show, Sale In Ft. Worth Set For Feb. 7

Dallas — The Texas Maine-Anjou Association breeding cattle show and sale will be held Saturday, Feb. 7, 1981, at the Southwestern Exposition and Fair Grounds in Fort Worth.

"Range Cube Feeding Simplified"

The Cube Dude

"Removable Range Cube Dispenser"
The new "CUBE DUDE" makes supplemental feeding easier and faster. Cubes are distributed evenly as the operator drives along, opening the gravity flow hopper door by pulling a rope from within the cab. Cubes can be dispensed in a long line or in piles as the truck moves along. Easily mounted on truck tailgate or optional bracket.

- SAVES TIME & LABOR (one man operates)
- WEIGHS ONLY 70 LBS (holds 300 lbs. of cubes)
- ONE OR MORE UNITS CAN BE USED AT THE SAME TIME
- COMES READY TO USE - EASILY MOUNTED
